HUNS BEGIN ASSAULT ON ALLIED LINE

THAT REPORTS THAT GERMAN ASSAULTS HAVE BEEN STRIKING IN FORCE AT VERMEZELLE.

MONT ROUGE WANTED

Germany fighting fiercely to gain Sharnburg, Mont Rouge and Mont Note—all are important places.

The Germans today began what seems to be a general assault on British hill position on the Kemmel front, south-west of Ypres, opening a new phase of the great drive in Flanders. Apparently the test of the allied holding power in this area is at hand. The preliminary bombardment started early in the morning and took in a 10-mile front from Meterin west of Bailloul to Vermezele, two miles south of Ypres. Infantry attack developed shortly afterward and the battle appeared to have been in earnest when Field Marshal Haig's report was issued in London this noon.

USE GREAT FORCE.—The enemy has been striking in great force at Vermezele for the last two or three days, evidently aiming to drive in behind Ypres and break up the orderly withdrawal of British troops. The earlier portion of Ypres which they have been evacuating. General Von Arnim has been held off from the southern suburbs of the city. Vermezele has been appearing to take advantage of the success. He won last week in the capture of Mont Kemmel, which he was unable to develop into an attack because of resistance.

EXPECT GREAT THREAT.—Further attacks in the Vermezele sector may accompany the victory of today's fight, but the danger of a general offensive is likely to manifest itself in the vicinity of Loos, where Sharnburg, Mont Rouge, Mont Note and other outposts are the enemy objectives.

FRENCH HOLDING.—The French, who are holding the line at Loos, fortified themselves late last week by capturing the village, although they lost more than once by savage attacks. Another attack launched there yesterday afternoon was promptly repulsed. Probably the main effort of the German offensive will be heavily concentrated on the southern portion of the Ypres front from Giverny to Neespe, wood and likewise named their villages along the line between Ypres and Arras.

No infantry attacks are reported in the sector except on the part of the British, who by a successful coup last night captured the post of Giverny, and then last week near Estersberg, north of Giverny, as in the case of the last previous heavy assault in Flanders. The Germans have also been attacking on the St. Eloi front, although not in such force as was used last week. They drove several times at the French position in Hangard wood and in the vicinity of the sector north of Ypres.

ATTACKS BROKEN.—Infantry attacks were broken up by French fire and the allied line held steady. The German offensive in the sector between Ypres and Arras, and between Ypres and Neespe, was broken up by French fire and the allied line held steady.

FULL GIVEN UP.—Lornwood and Giverny have been given up. The British hold Vermezele after two days of the most bitter fighting, so the Germans are better equipped to attack Ypres, which is being bombarded violently with gas shells. From Vermezele westward there has been no fighting except around Loos, where the French have been steadily outlasting the enemy. A foothold was gained in Loos, Saturday, by the enemy and they are reported making good for another day to delay the French advance toward Loos and the road running northward to Sharnburg from Mont Rouge. These reports are links in the chain of events leading to the capture of Ypres.

HEAVY RAINFALL HAS IMPROVED CROPS
St. Paul, April 29.—A generous rainfall during the past twenty-four hours which swept Minnesota, the Dakotas, and the rest of the Missouri valley, is believed to have greatly improved crop conditions. Reports previously received from this district declared the farmers were concerned because of the prolonged dry weather. The Red River valley was the scene of the rain-belt.

Former Secretary Of Interior Installed As Foreign Minister

Tokio, April 29.—Baron Goto was today installed as foreign minister in succession to Baron Motono, resigned. Baron Goto was minister of the interior in the Terauchi cabinet and the vacancy created in that portfolio has been filled by the appointment of Rentaro Mizuno. The change in foreign ministers has excited the greatest interest because of the powerful personality of Goto. He announced in the newspaper he would follow the policy of the outgoing minister.

MILITARY COMPANIES WILL ACT AS ESCORT

PLATOON FROM SIXTEENTH SEPARATE COMPANY AND TWO HIGH SCHOOL COMPANIES WILL MARCH WITH DRAFT CONTINGENT.

CITY SHOULD TURN OUT

People Should Be Present at Depot Tomorrow Morning To Give Forty-Six Boys Leaving For Camp Grant Some Rousing Cheers

Jamesville will honor the forty-six boys who leave for Camp Grant tomorrow morning at eleven-fifteen with a rousing farewell. Plans have been completed for a parade from the post office to the depot, where the select will gather, to the Chicago Milwaukee and St. Paul depot, where they will entrain on a special for Camp Grant, together with three hundred and nine men from northern cities of the state.

Joseph Connors, who is in charge of the arrangements, has secured the Bower City band to lead the line of march. The two high school military companies have agreed to enter the parade and a platoon of the Sixteenth Separate company of the Wisconsin State Guard, will also march.

The band will gather on Milwaukee street in front of the army at ten-fifteen. Here the two high school companies, under the command of Captains Robert Stevens and Harold Persons, and the State Guard platoon with Lieut. Victor Hemming in charge will also mobilize.

Headed by the band with the platoon of the State Guard next in line and the high school companies following, the parade will proceed to the post office where the draft contingent will fall in line in back of the State Guard platoon. The procession will then march to Milwaukee street and west to Academy street to the St. Paul depot.

Whether the contingent of select will be allowed to break ranks at the depot to bid farewell to their friends, is a question which has not yet been decided by the board. It is thought that considerable confusion could be avoided by requiring the men to board the train immediately upon arrival. After the last group of select left for Port Stevens, there was a great amount of congestion at the station, and some of the men had difficulty in boarding the train.

Should it be decided not to break ranks, farewells can be said by the boys from the windows of the cars, the same as was required of the boys of Company "M" when they left the city.

Who the leader of the contingent will be was not announced this morning, but it was planned to choose one at the depot at four o'clock.

Here is another opportunity for the people of Jamesville to demonstrate their love for the boys. A large crowd at the depot tomorrow in order that the boys may go away to the Rockford camp to begin training, imbued with the proper spirit.

When she came home at six o'clock she found several of her friends had taken possession and a supper was already served. She was presented with several gifts. In the evening bridge was played.

The St. Paul's Union will serve a dinner Wednesday at 12 o'clock for 25 cts. at the Baptist church. The proceeds will be given to the Red Cross. It will be taken up and Mrs. A. M. Post of Minneapolis will bring a helpful message to every woman that attends.

The picture to be shown at the Beverly Theatre on Thursday of the base hospitals in France, of their methods of making the surgical dressings, and of the care they give the wounded and sick boys, which will be shown for the benefit of the Red Cross, is the same work that Miss Chesbore of Beloit told the Jamesville ladies about at the home of Mrs. A. few months ago. Miss Chesbore is now in France, where she has been ever since Christmas in the canteen service, right behind the firing line.

BOY SCOUTS REPORT GREAT SUCCESS ON FIRST DAY OF DRIVE

Unable to Report Totals of First Day—Subscriptions for a Few Days—Jamesville's Total Now \$956.000.

Jamesville's Quota...\$ 800,000

Already Subscribed... 956,000

Estimated total... 1,000,000

Working with the same determination that characterized their previous efforts, the Boy Scouts of this city started on their third Liberty loan drive on Saturday morning. Owing to the fact that the money is not collected by the Scouts it will be impossible for a few days to give out the totals of the subscriptions gained by the young boys on their first day, but all of the Scouts reported that they met with very good success.

Jamesville gained another six thousand on Saturday, making the total to date, exclusive of what the Scouts have turned in, \$956,000. It is almost certain now that Jamesville will go over the million dollar mark by Saturday, the day set for the closing of the third Liberty loan. The Scouts are now working very hard to secure until Tuesday, when they will be allowed to solicit anywhere in the city.

Very encouraging reports have been received by M. G. Jeffris, chairman of the Rock County Liberty loan committee, as to the subscriptions in the county. It is the desire of Mr. Jeffris and his co-workers to have the county go over the top big subscription fifty per cent over the quota. It is what the government desires, and Rock county Liberty loan workers are doing all they can to satisfy the government.

Rock county farmers have done much better in the present campaign than they have in the two previous ones and it has helped materially in putting the county over the top with a big margin.

Beloit has reached her quota of \$900,000 and is still working in order to beat this city's total. Great credit is due the men and women and children of this city who have given their time to the campaign to help Jamesville make a good showing.

Liberty loan headquarters on North Main street will remain open during the present week and the committee in charge of the local campaign is appealing to the very few people in this city who have not as yet purchased bonds to come to the headquarters and subscribe before the campaign closes.

Only a very small list of names is on hand of the people who have failed to subscribe. It is impossible to call on all of these people personally in the next five days, and A. P. Lovejoy, chairman of the local committee, requests that these hold-backs come to the office of the Liberty loan as soon as possible before Saturday, May 4, and prove their loyalty by purchasing a bond.

EAST PORTER

East Porter, April 29.—H. Fossenden of Afton spent the week-end with relatives here.

Mrs. P. Handke and son, Herbert, spent Sunday in Edgerton.

Mrs. E. Davis of Leiden, spent Friday with Ruth Walters.

WORKS TO EXTEND THE PARCEL POST

James I. Blakslee.

James I. Blakslee, fourth assistant postmaster general, is working for an extension of the parcel post service that will mean the delivery of products from the farm to the city.

Mr. Blakslee believes that through the use of motor vehicles in the parcel post service, the country's food supply would be increased, there would be a quicker delivery of farm products and Uncle Sam would increase his profits.

FIND BODY OF YOUTH DROWNED ON APRIL 1

Searchers Locate Body of Chaucery Dean, Who Met His Fate While Playing on Banks of Rock River.

After nearly one month of searching, the body of Chaucery Dean, son of Mr. and Mrs. E. M. Dean, 1221 Eastern avenue, was located this afternoon at two o'clock on the island near the Rock River Woolen Mills, some distance below the place where he accidentally fell into the river and was drowned. Young Dean met his fate on the evening of April 1 while playing on the shore of the river at the Big Rock near the Monterey bridge.

Although the police and other searching parties have been hard at work since the youth disappeared, no trace of his body was found until this afternoon. Due to the water being so deep in the vicinity of the Big Rock and the current so swift the body was thought to have immediately floated down the river to the island where it lodged and was located this afternoon.

The King's Daughters will meet with Woman's Union Wednesday in parlors of Baptist church.

Mrs. Howland, Sec.

Sundowner Club: The next dance will be held at East Side Odd Fellows' hall Thursday evening, May 2.

GOVERNMENT ORDERS SEVENTEEN FACTORIES CLOSED IN WISCONSIN

Several of the Largest Milk Factories
in This State Ordered Closed for
Failure to Submit Reports.

Seventeen large Wisconsin milk factories and condenseries, including the famous Horlick Malted Milk company of Racine and four plants of Libby, McNeill & Libby of Chicago, were closed by the federal food administration for this afternoon. The action was taken on orders from Washington.

By order of the federal government last October all milk companies were required to file reports on the amount of milk handled, to whom the products were sold, what portion went to the government, and the portion offered in private sale.

Late this afternoon Magnus Swenson, food administrator in Wisconsin, received a telegram saying that seventeen companies in Wisconsin had failed to file reports and their plants must be closed immediately.

Companies Ordered Closed.

Following are the companies affected:

Sullivan Condensed Milk company, Sullivan, Wis.

Wisconsin Condensed Milk company, Burlington, Wis.

Alvord Butter and Cheese company, Elkhorn, Wis.

Ryan Bros., Ellison Bay, Wis.

Rice Lake Creamery company, Rice Lake, Wis.

Horlick's Malted Milk company, Racine, Wis.

A. W. Paves, Marathon, Wis.

Joseph W. Kautzner, Algona, Wis.

Albert W. Teske, Kewaunee, Wis.

Waukegan Cheese company, Waukegan, Wis.

P. A. Baker, Keok, Wis.

Libby, McNeill & Libby, Janesville, Wis.

Libby, McNeill & Libby, Waupun, Wis.

Libby, McNeill & Libby, Sharon, Wis.

Kluge & Sanger Bros., Delafield, Wis.

Magnolia Farmers' Creamery company, Oshkosh, Wis.

Order a Surprise.

As soon as the order was received Mr. Swenson ordered a telegram to each company notifying them that an order is in the mail to close their place of business.

Food administrators in the various counties were directed to keep the plants closed until the federal law has been complied with.

The order of the federal food administration came as a surprise to the companies, and many of them attempted to seek a respite for a few days.

PROSPERITY OF FARMER TENDS TOWARDS HIGHER STANDARDS OF LIVING

(Special to the Gazette.)

Madison, Wis., April 29.—The prosperity of the farmer is tending towards a higher standard of living, especially in regard to the various conveniences affecting rural health and comfort in this state. This conclusion is drawn by officials in the state department of health after noting the steady introduction of running water, systems sewage disposal plants, and modern plumbing into Wisconsin farm homes in the last few years.

Reports by field men of the planning division of the state board for a long period have shown that thousands of such homes have been equipped with sanitary comforts. The influence of these installations upon the health of farm families, according to these authorities, cannot be overestimated. The water supply systems installed on farms, which necessarily are independent of any public system, consist usually of a gasoline engine or windmill, as the motive power, a storage tank located in the basement or underground, or in the barn, protected against frost, and plumbing fixtures throughout the house, to which is piped water from the storage tank. In these methods the entire house and other farm buildings are provided with a plentiful supply of water for bathroom, laundry, kitchen and barn.

The sewage disposal system usually consists of a septic tank and disposal unit, capable of rendering the sewage innocuous and safeguarding the water supply from contamination. The health of farm families, according to these authorities, cannot be overestimated. No garden can be successful unless it is properly planned and the soil prepared to receive the seed.

Assuming that the land you are going to use has never been cultivated, the first thing is to thoroughly clear it of all rubbish, stones and weeds. Make these off and then spade. If there have been piles of lime, or other building substances on the land, scatter them over the entire area so that there will not be any one spot which is impregnated with lime and the like. Spade to a depth of at least a foot, or more, and remove all lumps and rocks. If the growing weeds are not too large they may be spaded under and allowed to decay, thereby fertilizing the soil.

After the first spading the soil should be allowed to stand so that it may become thoroughly aired. Mix in your fertilizer and spade it into the already pulverized earth. This is extremely important. When the soil is thoroughly broken up look well to its leveling. If it is located on a hillside let it slope in conformity to the natural drainage of the land. In a section where it is necessary to irrigate, it is better to make your garden into beds, having rough-like spaces under and running through the beds in which you can run water when the land becomes dry. Irrigation is far superior to sprinkling. Whether vegetables or flowers, two or three things are necessary for success.

port and which at present accommodates vessels from all parts of the world which have come here for grain, wool and hides. About this point the canal would extend westward, crossing the northern part of the province of Buenos Aires and traversing the rich agricultural province of Santa Fe to the city of Cordoba, the province of Cordoba, when the direction would be northwest through the department of Santa Maria to the city of Cordoba.

Part of the route built in the cities and towns of Maron, Rodriguez, Mercedes, Chacabuco, Junin, Arenales, Teodelina, Venado Tuerto, La Carlota, La Laguna and San Antonio. Westward from Villa Maria the canal would parallel the right of way of the Central Argentine railway for 13 miles to San Antonio, from which it would run northwest to the city of Cordoba.

The syndicate requests a concession permitting it to operate the canal for seventy years, after which the entire work will be turned over to the nation. The syndicate agreeing during the seventy years to operate the canal at tariffs lower than those of the railways. A representative of the syndicate says the capital for digging the canal has been subscribed.

The idea of a canal from Corboba to Buenos Aires is not a new one. The project is one that has long been recognized by Argentines as one that must be undertaken sooner or later.

"So! You were right, after all. Esteban Varona didn't die. God must have sent us to San Antonio to deliver him."

"He's sick, sick," O'Reilly said, huskily. "Those Spaniards! Look what they've done to him! His voice changed. He cried, hoarsely: 'Well,

"Esteban! This is O'Reilly!"

"I'm late again. I'm always just a little bit late. He'll die before he can tell me."

"Wait! Take hold of yourself. We'll do all that can be done to save him. Now come, we must be going, or all San Antonio will be upon us."

O'Reilly roared. "Put him in my arms," he ordered. "I'll carry him to camp myself."

But Lopez shook his head, saying, gently: "It's a long march, and the little would be better for him. Think, heaven we have an angel of mercy awaiting us, and she will know how to make him well."

Vinol Made This Run-Down Woman Strong

Her Signed Letter Proves This. Read It.

KEENE, N. H. "I was all run down, had no strength, no appetite and a bad cough, so that I could do no work. I was just a shadow of my former self. I took Vinol and my condition soon improved. My appetite improved, I gained strength and weight again. Mrs. Irene Davis, 59 Russell St., Keene, N. H."

Vinol is a constitutional food and liver and blood purifier which creates an appetite, aids digestion, enriches the blood, and in this manner cures all weakness. Vinol is sold in Brodhead by W. J. Smith, and in the best drug stores in every town and city in the country.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels. Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, all goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramping or pain. Take one or two at bedtime for quick relief, so you can get what you like. At 10c and 25c per box. All druggists.

When the troop resumed its retreat, Esteban Varona lay suspended upon a swinging bed between O'Reilly and Judson's horses. Although they carried him as carefully as they could throughout that long hot journey, he never ceased his babbling and never awoke to his surroundings.

CHAPTER XV.

Norine Takes Charge.

During the next few days O'Reilly had reason to bless the happy chance which had brought Norine Evans to Cuba. During the return journey from San Antonio de los Baños he had discovered how really ill Esteban Varona was, how weak his hold upon life. After listening to his ravings, O'Reilly began to fear that the poor fellow's mind was permanently affected. It was an appalling possibility, one to which he could not reconcile himself. To think that somewhere in that fevered brain was perhaps locked the truth about Rosa's fate, if not the secret of her whereabouts, and yet to be unable to wring an intelligent answer to a single question, was intolerable. The hours of that ride were among the longest O'Reilly had ever passed.

But Norine Evans gave him new heart. She took complete charge of the sick man upon his arrival in camp; then in her brisk, matter-of-fact way she directed O'Reilly to go and get some much-needed rest. Esteban was ill, very ill, she admitted; there was no competent doctor near, and her own facilities for nursing were primitive indeed; nevertheless, she expressed confidence that she could cure him, and reminded O'Reilly that nature has a blessed way of building up a resistance to environment. As a result of her good cheer O'Reilly managed to enjoy a night's sleep.

He was up at daylight to offer his services in caring for Esteban Varona, but Norine declined them.

"His fever is down a little and he has taken some nourishment," she reported. "That food you boys risked your silly lives for may come in handy, after all."

"I dare say he won't be able to talk to me today," O'Reilly ventured.

"Not today, nor for many days, I'm afraid."

"If you don't mind, then, I'll hang around and listen to what he says," he told her, wistfully. "He might drop a word about Rosa."

"To be sure. So far he's scarcely mentioned her. I can't understand much that he says, of course, but Mrs. Ruiz tells me it's all jumbled and quite unintelligible."

It was a balmy, languid morning about two weeks after O'Reilly's return to the City Among the Leaves. In a hammock swung between two trees Esteban Varona lay, listening to the admonitions of his nurse.

Johnnie O'Reilly had just bade them both a hearty good morning and now Norine was saying: "One hour, no more. You had a temperature again last night, and it came from talking too much. Remember, it takes me just one hour to make my rounds, and if you are not through with your tales of blood and battle when I get back you'll have to flush them tomorrow." With a nod and a smile she left.

As Esteban looked after her his white teeth gleamed and his hollow face lit up.

"She brings me new life," he told O'Reilly. "She is so strong, so healthy, so full of life herself. She is wonderful! When I first saw her bending over me I thought I was dreaming. Sometimes, even yet, I think she cannot be real. But she is, eh?"

"She is quite substantial," O'Reilly smiled. "All the sick fellows talk as you do."

Esteban looked up quickly; his face flushed. "She—er—nurses—others, eh? I'm not the only one?"

"Well, hardly."

There was a brief pause; then Esteban shifted his position and his tone changed. "Tell me, have you heard any news?"

"Not yet, but we will hear some before long I'm sure."

"Your faith does as much for me as this lady's care. But when you go away, when I'm alone, when I begin to think—"

"Don't think too much; don't permit yourself to doubt," O'Reilly said, quickly. "Take my word for it, Rosa is alive and we'll find her somewhere, somehow. General Gomez will soon have word of her. That's what I've been waiting for—that and what you might have to tell me."

"You know all that I know now and everything that has happened to me."

"I don't know how you came to be in a cell in San Antonio de los Baños, two hundred miles from the place you were killed. That is still a mystery."

"It is very simple, amigo. Let me see: I had finished telling you about the fight at La Joya. I was telling you how I fainted. Some good people found me a few hours after I lost consciousness. They supposed I had been at-

tacked by guerrillas and left for dead. Finding that I still had life in me, they took me home with them. They were old friends from Matanzas by the name of Valdes—cultured people who had fled the city and were hiding in the mangia like the rest of us."

"Not Valdes, the notary?"

"The very same. Alberto Valdes and his four daughters. Heaven guided them to me. Alberto was an old man; he had hard work to provide food for his girls. Nevertheless, he refused to abandon me. Oh, they were faithful, patient people! You see, I had walked east instead of west, and now I was miles away from home, and the country between was swarming with Spaniards who were burning, destroying, killing. You wouldn't know Matanzas, O'Reilly. It is a desert."

"I finally became able to drag myself around the hut. But I had no means of sending word to Rosa, and the uncertainty nearly made me crazy. My clothes had rotted from me; my bones were just under the skin. I must have been a shocking sight. Then one day there came a fellow traveling east with messages for Gomez. He was one of Lopez' men, and he told me that Lopez had gone to the Rubi Hills with Maceo, and that there were none of our men left in the province. He told me other things, too. It was from him that I learned—"

Esteban Varona's thin hands clutched the edges of his hammock and he rolled his head weakly from side to side. "It was he who told me about Rosa. He said that Cobo had ravaged the Yumuri and that my sister—was gone!"

"There, there! We know better now," O'Reilly said, soothingly.

"It was a hideous story, a story of rape, murder. I wonder that I didn't go mad. It never occurred to me to doubt, and as a matter of fact the fellow was honest enough; he really believed what he told me. After the man had finished I felt the desire to get away from all I had known and loved, to leave Matanzas for new fields and give what was left of me to the cause. I was free to enlist, since I couldn't reach Lopez, and I came to join our forces in the Orient."

"That is how you found me in this province. Lopez' men never delivered those dispatches, for we were taken crossing the trocha—at least I was taken, for Pablo was killed. They'd have made an end of me, too. I dare say, only I was so weak. It seems a century since that night. My memory doesn't serve me very well from that point, for they jaded me, and I grew dazed. I was out of my head a good deal."

The two men fell silent for a while. Esteban lay with closed eyes, exhausted. O'Reilly gave himself up to frowning thought. His thoughts were not pleasant; he could not, for the life of him, believe in Rosa's safety so implicitly as he had led Esteban to suppose; his efforts to cheer the other had sapped his own supply of hope.

meaning look at O'Reilly. "You talked about nothing else for a whole week. Let me feel your pulse."

Esteban surrendered his hand with suspicious readiness.

"You were fat broke when we got you," O'Reilly declared.

"Probably, I seem to remember that somebody stole it."

"Doubloons! Pieces of eight! Golden guineas!" exclaimed Norine. "Why those are pirate coins! They remind me of Treasure Island; of Long John Silver and his wooden leg; of Ben Gunn and all the rest."

Esteban smiled uncomprehendingly. "Yes? Well, this has to do with treasure of the Varonas. My father buried it. He was very rich, you know, and he was afraid of the Spaniards. O'Reilly knows the story."

Johnnie assented with a grunt. "Sure! I know all about it."

Esteban raised himself to his elbow. "You think it's a myth, a joke. Well, it's not. I know where it is. I found it!"

Norine gasped; Johnnie spoke soothingly: "Don't get excited, old man; you've talked too much today."

"Hah!" Esteban fell back upon his pillow. "I haven't any fever, I'm as sane as ever I was. That treasure exists, and that doubtless gave me the clue to its whereabouts. Don Esteban, my father, was cunning; he could hide things better than a magpie. It remained for me to discover his trick."

Dinner Stories

A pawnbroker in a small country town was awakened in the middle of the night by a furious knocking at his door.

"Who's there?" he called.

"It's me," came the answer.

"What's the matter?" he asked.

"Come down," demanded the stranger.

"Who are—?"

"Come down!" interrupted the other.

The pawnbroker hastened downstairs and opened the door.

"I wish to know the time!" said the belligerent one.

"You thinking I do. Do you mean to say you woke me up for that? How dare you?"

The midnight visitor looked injured.

"Well, you've got my watch," he explained.

"Captain—What became of that pacifist who was kicking around here?"

Sergeant (colored)—He was convicted of high treason and dey put him in de guard house for two weeks.

Captain—Well, he was lucky. That's mighty small punishment for high treason.

Sergeant—Yass! He was lucky. Aftah dey two weeks was up dey took him out and shot him.

The rookie, slightly under the influence, was being taken to the guard house.

"Quick promotion," he muttered. "I'm already in charge of a squad of men."

A famous negro pugilist had just been assigned to a squad, and after his company was dismissed his corporal was heard to say:

"An' boy, ah ain't goin' to give no commands to 'at ol' boy—no, ma'am! Ah'm just goin' to say 'Please, mistake, will you Squads Right?'"

His Position.

Gibbs—"Bison expressed a good deal of sympathy for poor Blank. Did you try him for a contribution?"

Dibbs—"No, I know Bison; he's like the letter 'p'—first in pity and last in help."

Milton News

Milton, April 29.—The regular meeting of the Woman's Village Improvement club was held Thursday afternoon at the home of Mrs. W. E. Rogers. The program was in charge of the civics committee, Mrs. F. H. Campbell, chairman. The meeting opened with music, "America," by the club. A review of the first ten years of civic work done by the club was given by Mrs. W. W. Clarke. A very interesting letter from Mrs. J. G. Carr, who is spending the winter in Kingfisher, Okla., was read. Mrs. Carr gave a description of a magnificent celebration of Liberty day in that city. The main address of the afternoon was given by the Rev. R. S. Scott, pastor of the local M. E. church. Mr. Scott's subject: "Civic Needs of Our Village as Observed by a Newcomer." Mrs. John Wood sweetly sang, "What Are You Going to Do For Our Boys?" The song was written especially for the third Liberty loan drive. The program closed with a piano duet by Messrs. Thomas and McComb of the college.
